

Panel Change (no change in capacity)

If the existing accredited panels are changed for any reason, e.g. damage or fault the Ofgem application will still need to be amended to record the new equipment even if the total installed capacity has not changed.

Documentation / Information Required

- ☐ **Installers report on your letterhead paper providing.....**
 - Date of change
 - Declaration confirming that the new panels have not affected the original accredited capacity
- ☐ **Amended schematic diagram showing the entire system i.e.**
 - Panel count, rating, make and model
 - Generation meter make, model, serial number
 - Inverter make, model
- ☐ **Copy of invoice**
- ☐ **MCS or commissioning certificate**
